HX-9 datasheet, revision 2

Supersedes revision 1. Current release.

Helios Robotics GmbH, Industrial Arms Division

This document describes the mechanical and electrical data of the arm.
Operating temperature 0 to 45 C. Storage temperature -20 to 60 C.
Revision history: revision 1 was withdrawn after a payload test.

Technical data

Payload ..... 8.5 kg
Reach ..... 900 mm
Repeatability ..... +/-0.03 mm
Protection class IP65
Maximum joint speed ..... 230 deg/s
Power consumption ..... 400 W
